

Vital Records Guidelines

The Christian County Clerk's Office will only release certified copies or certifications of vital records upon written request to individuals who are authorized or entitled to receive them. To do otherwise is a violation of Illinois Law. Vital records are **not** considered public information, nor are they subject to the Freedom of Information Act.

NOTE: Any person who willfully and knowingly uses or attempts to use, or furnishes to another to use for any purpose of deception, any certificate, record, report, or certified copy thereof so made, altered, amended, or mutilated; or any person who with the intention to deceive, willfully uses or attempts to use any certificate of birth or certified copy of a record of birth knowing that such certificate or certified copy was issued upon a record that is false in whole or in part or that relates to the birth of another person, is guilty of a **Class 4 Felony** in the State of Illinois.

Eligibility for Certifications of Records

BIRTHS: Before a request for a certification or certified copy can be considered, you must specify your eligibility to obtain it. Illinois Law states that certifications or certified copies of birth records may be issued only as listed below:

- Upon the specific written request for a certification or certified copy by the person whose record is requested, if of legal age (18 or older) or by a parent, if listed on the birth record; or by a legal guardian, with proof of guardianship or other legal representative of the person to whom the record relates, with notarized proof of authority; or
- Upon specific written request for a certification by a department of the State, a municipal corporation, or the federal government, presented on an official letterhead and with proper identification of the individual making the request; or
- Upon the order of a court of record.

If you are eligible, please indicate on the application your relationship to the person registered **and** your intended use of the copy. Return the application to our office with the appropriate fees and proof of identification and eligibility. If you are mailing this request, you must attach a **clear** photocopy of either a State-issued ID or Driver's License and any documentation needed as proof of eligibility. We will mail the record directly to you at your address as indicated on your proof of identification. We will not forward the record to a third party. Nor will we mail it to any address other than that indicated on your ID **unless a clear explanation of why this is necessary is provided in your request.**

This office will release a birth record to your current spouse/partner provided the following conditions are met. A written authorization from the party whose record is to be issued specifying that they are sending their current spouse/partner to retrieve the record is to be attached. Along with that authorization, they must send a photocopy of their current state-issued ID or Driver's License as proof that they are indeed making the request. Spouse/partner authorized to make the pick-up will also need to provide valid photo ID of government-issue that is current and correct.

DEATHS, MARRIAGES, AND CIVIL UNIONS: You must submit a written request/application providing all required information and signed by the applicant, attach valid proof of identity (photo ID of government-issue) for the applicant and pay the appropriate fees. The marriage/civil union applications are only open to those parties on the license (Bride/Groom or Partner A/Partner B).

Government Agencies: We will provide verification if a record is on file. We will provide the VA with death records if a written request on their letterhead is made stating the record is needed. All other requests for certifications should be submitted to the Illinois Department of Vital Records.

We issue certifications of Births, Marriages, and Civil Unions. If you need a certified photocopy, then you will need to specify why a certification is not sufficient for your needs. Both are recognized by law as certified, sealed records, and are legally acceptable proofs.

Genealogical (White, Non-Certified) Copies

Any Genealogical requests that do not include specific dates, names, relationship, and/or intended use are considered searches. All searches will incur a charge of \$9.00 whether or not a record is located.

The **indexes** (for all vital records on file prior to 1916) are open to the public. All searches after 1916 must be done by our staff. All genealogical copies will be clearly marked with a "Genealogical Purposes Only" stamp.

BIRTHS: In order to receive a non-certified birth record, the record must have been on file for at least 75 years. If the record has been on file for less than 100 years, and the person is now deceased, you must complete a separate application (SP5919B) and provide us with proof of their death. If the record has been on file for 100 years or more, we do not require proof of death, but you must still complete the special application.

DEATHS, MARRIAGES, AND CIVIL UNIONS: These records must be on file for at least 20 years prior to request. Civil Unions will not be eligible for this until June of 2031.
